

Is Your OneStream Environment Optimized for the Future?

Build your Future-Ready Roadmap with Ascend

As technology changes and evolves, an organization's requirements often follow in tandem. What was sufficient yesterday may no longer be adequate today and may even hinder the company's continued success.

While OneStream delivers powerful capabilities out of the box, many organizations only scratch the surface, missing opportunities to streamline processes, enhance reporting accuracy, and future-proof their financial operations. In turbulent macroeconomic times, it's essential to evaluate whether your current roadmap aligns with your evolving business needs and strategic goals.

That's why Ascend Partners is offering businesses just like yours the opportunity to evaluate and review their OneStream implementation to help uncover hidden value and eliminate inefficiencies. **This free consultation service** will help you further align your OneStream roadmap with your strategic requirements, both for today and tomorrow.

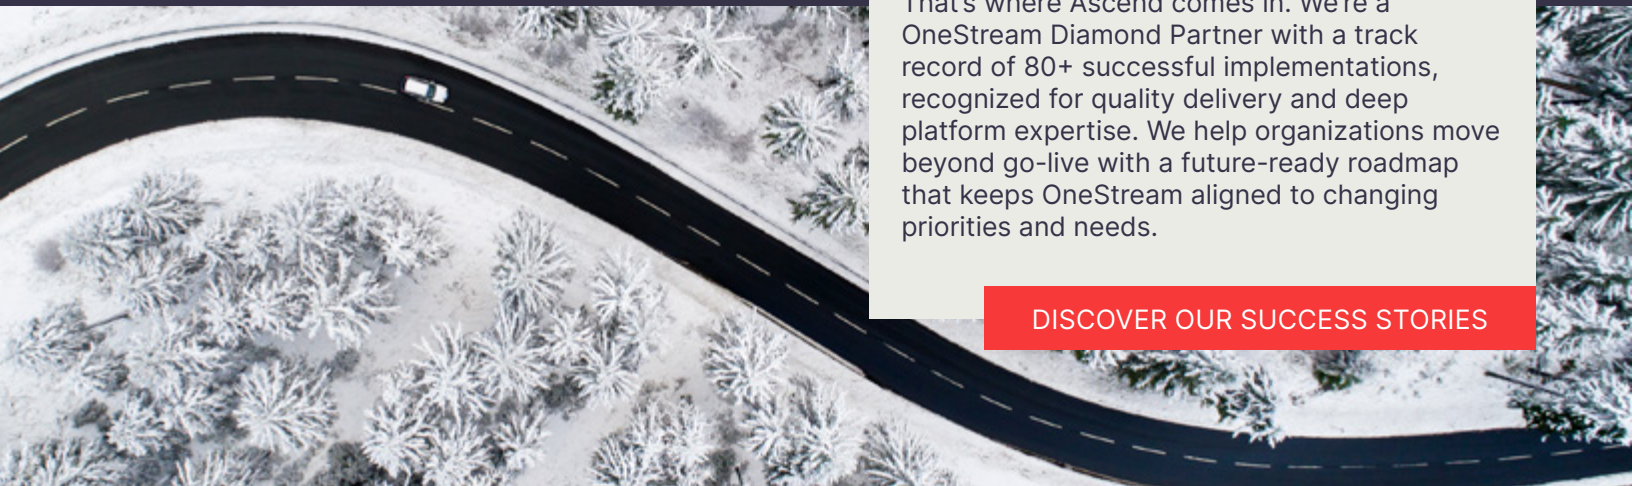

Ascend to the Next Stage of OneStream

Regularly evaluating your OneStream environment is essential to staying competitive in a fast-moving landscape. A strategic review helps uncover opportunities to streamline processes, strengthen decision-ready insights, and ensure your platform is aligned to what's next—not just what's now.

That's where Ascend comes in. We're a OneStream Diamond Partner with a track record of 80+ successful implementations, recognized for quality delivery and deep platform expertise. We help organizations move beyond go-live with a future-ready roadmap that keeps OneStream aligned to changing priorities and needs.

[DISCOVER OUR SUCCESS STORIES](#)

Not sure where to start? Just ask yourself some simple questions:

How would you describe your current technology landscape, including OneStream and Non-Finance systems?

Take a moment to assess your existing technology stack.

- ▶ Are your other Finance and Non-Finance systems integrated with OneStream?
- ▶ Are there manual processes or disconnected tools that OneStream could unify or automate?

What business challenges are you experiencing?

Many companies encounter obstacles such as salary burn, resource shortages, knowledge management challenges, and difficulties with process improvement.

- ▶ What are the specific pain points that your organization faces?
- ▶ How are these challenges affecting your ability to achieve your business goals?

What technology challenges are you experiencing?

Consider the technology challenges you may be facing, such as siloed systems, legacy platforms with limited support, and unreliable data.

- ▶ Are there any limitations or issues with your current systems that are preventing you from optimizing your processes?
- ▶ How are these challenges impacting your overall efficiency and productivity?

ANALYSIS (CONTINUED)

Do you have industry-specific business needs?

Consider any industry-specific business needs that your organization has.

- ▶ Are there any unique requirements or regulations that need to be addressed?
- ▶ How well are your current systems meeting these needs?

What roadblocks or risks do you foresee occurring in the future?

Anticipate potential roadblocks that could arise in the short term to become risk-proof in the long term.

- ▶ Are there any challenges or obstacles that could hinder your organization's progress?
- ▶ How can you proactively address these roadblocks to ensure smooth implementation and growth?

What are your desired outcomes?

Outline the specific outcomes that would signal a high-impact transformation. These goals will act as a north star for your OneStream roadmap and serve as anchors for decision-making and prioritization.

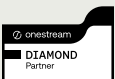

- ▶ What would success look like if OneStream were fully optimized across your enterprise?
- ▶ Are you aiming for faster close cycles, deeper analytics, or more agile planning?
- ▶ What would deliver the most value?

Start uncovering the full potential of your platform.
